

War Continues - Aliyah Surges

The year 2022 has been fraught with many challenges, not the least of which has been the war in Ukraine. Yet the demands created by the war are not isolated to Ukraine alone. In fact, **Ezra International** has been actively involved in an upturn of Aliyah from **Russia, Belarus, and Ukraine**. But the challenges are not limited to just three countries.

Over the past year and for the foreseeable future, bordering countries have become escape routes for Jewish refugees fleeing the war-torn areas and these war embroiled nations. Ezra teams in **Poland, Moldova, Georgia, Kazakhstan, Uzbekistan, and Azerbaijan** have all seen a surge of refugees seeking to make their way to Israel through their countries. As of

the time of this writing Ezra International has helped over **10,500 Jewish refugees** to escape the devastation of war and make it home to Israel.

Increased Workload

Of course, this increased workload has put an unusual strain on our Ezra representatives in each of these nations. This upsurge has been unprecedented in recent memory and our teams are rising to the challenge. But naturally it has taken a toll on them physically and subsequently on their resources and budgets.

Worldwide Challenges

The winter weather will add another level of adversity in these and other nations where Ezra works. Europe will be affected by the lack of heating oil and the economies will suffer greatly. Please pray for our teams in **France** and **Germany**. The economies in South America are also in decline and our teams in **Argentina and Brazil** face many challenges there.

This is where you come in. Once again, we are depending on you to be faithful partners to our teams world-wide.

THE DEMAND IS GREAT, BUT OUR GOD IS GREATER – HE WORKS THROUGH PARTNERS LIKE YOU. (over, please)

YES Pat! You can count on me to be a special blessing to the Jewish people during their desperate time of need. *Credit card information on reverse. Please note any change of address in the space below.*
